Where to find old wind turbines

Founded in 2018, Re-Wind among other groups has been experimenting with ways to put leftover wind turbine blades to use. Pedestrian bridges are one idea: the group has built one bridge in...

Join the wind turbine & spare parts marketplace. Buy and sell new, used and refurbished wind turbines, spare parts and components.

Find out where old wind turbine blades end up and uncover the environmental impact of these giant structures--what happens when they can no longer spin?

More than 86,000 wind turbines were built in 45 states (plus Guam and Puerto Rico) from 1981 through early 2024. More than 11,000 of those have been decommissioned since 1992.

A US firm is refurbishing, upgrading, and relocating older wind turbines for re-use in the distributed energy resources market.

The U.S. Wind Turbine Database (USWTDB) provides the locations of land-based and offshore wind turbines in the United States, corresponding wind project information, and turbine technical ...

Welcome to the wind turbine graveyard. It stretches a hundred metres from a bend in the North Platte River in Casper, Wyoming. Between last September and this March, it will become the ...

Tens of thousands of old wind turbines are set to retire globally every year - and many of them are bound to get scrapped. But some companies are trying to save them.
