

10MW outdoor control cabinet for railway stations

What is an outdoor cabinet used for?

Outdoor cabinets can be used in a variety of settings such as CCTV monitoring of the train, track and platform; or to house trackside functional electronics such as communications between the track and the train, or the signal box and the train.

What are WEC rail rolling stock cabinets?

On-board the train there are many electrical systems which require housing capable of withstanding extreme conditions. WEC Rail rolling stock cabinets are designed to withstand and resist harsh conditions such as shock, vibration and temperature, thus protect the electronics they house.

What are outdoor rail enclosures for wayside controllers & electronic equipment?

Outdoor rail enclosures for wayside controllers and electronic equipment are available in standard and customisable configurations. Our network rail enclosures offer maximum protection and uptime for all your critical systems at a cost-effective price point.

Does WEC rail offer bespoke cabinets?

WEC Rail offers bespoke cabinets especially for mobile environments; the cabinet dimensions can be altered to cater for unique location difficulties, enabling the available space to be used to full effect. Products are available in a selection of colours, and are available on a short lead time basis.
