

200kW Communication Power Supply Cabinet for Charging Piles

Application Scenario This product is specially designed for high-reliability energy scenes, which can cooperate with photovoltaic energy storage system composed of energy storage products, ...

The charging module can be installed horizontally, side standing or upside down. If upside down installation is used, please contact our company to customize the front panel without a handle.

The charging module can be installed horizontally, side standing or upside down. ...

This versatile energy cabinet supports pole mounting, wall mounting, and floor installation for diverse deployment environments. It will have fittings of remote monitoring, smart power-off functions, and ...

It enhances load flexibility, reduces distribution network ...

This multifunctional cabinet provides 6 different operational modes. It will easily integrate into your power conversion system or serve as a foundation on a newly designed one.

It enhances load flexibility, reduces distribution network investments, and promotes the integration of clean energy. Moreover, it contributes to the development of the electric vehicle industry and reduces ...

Fully compliant with mandatory protection standards for terminal circuits in charging applications, the XL-21 ensures maximum safety and reliability. Tailored for optimal performance, it's the ideal choice for ...

The charger meets the relevant CE certification requirements and the charging connector meets the CCS2 requirements. The charger could support a variety of background management platforms.

The CPM Cabinets can be equipped with UPS modules, battery slots or a combination of both, allowing many different solutions and offering the highest degree of flexibility. Each 20kW provides 6A ...

This product is CCS, chademo, GBT integrated fast charging pile, which is mainly used for charging European, Japanese and Chinese standard electric vehicles. The product has the functions of ...

This product is a 200kW/480kWh industrial and commercial integrated energy storage cabinet utilizing Lithium Iron Phosphate (LFP) battery cells.

The CPM Cabinets can be equipped with UPS modules, battery ...
