Will Cambodia invest 210 billion in solar energy by 2043?

Phnom Penh, Cambodia - The Cambodian government has announced a historic investment plan in solar energy projects worth over 210 billion baht by 2043. This is part of its Power Development Masterplan (PDP) to transition the country towards clean energy and reduce carbon dioxide emissions.

Are solar power projects a good investment in Cambodia?

Krungthai COMPASS, a financial advisory firm, estimates that solar power projects in Cambodia can generate attractive returns on investment, with an internal rate of return (IRR) ranging from 4.18% to 19.35% and an average payback period of 4.9 to 12.3 years, depending on the electricity selling price offered in the auction.

Which provinces are suitable for solar power plant development in Thailand?

This will involve developing 39 solar power plants across 11 provinces, including Phnom Penh, Kampong Chhnang, Kampong Speu, and Kampong Thom. Krungthai COMPASS has assessed these four provinces as suitable for solar power plant development for Thai investors, based on three main factors:

How many solar power plants are in Phnom Penh?

For solar energy investment, the plan aims to increase power generation capacity by approximately 2,450 megawatts, with an investment value of about 48 billion baht. This will involve developing 39 solar power plants across 11 provinces, including Phnom Penh, Kampong Chhnang, Kampong Speu, and Kampong Thom.
