

Canberra electric vehicle adoption

Should you buy an electric car in Canberra?

The ACT Government has added 10 more electric vehicles to its fleet. Electric vehicles are better for the environment and cheaper to run. Making your next car electric could save you money. Canberra continues to lead the nation in supporting the uptake of electric vehicles (EVs). About 10 new electric vehicles are coming onto ACT roads every day.

Will Canberra become a city with electric vehicles?

Over the next decade, we will transform Canberra into a city where driving an Electric Vehicle (EV) - is the norm. This 'rEVolution' will see EVs become affordable, recharging convenient, and the default, most cost-effective choice for residents and businesses. Our rEVolution will dramatically increase electric vehicle use in the ACT by:

Will Australia become a leader in electric vehicle adoption?

The Australian Capital Territory (ACT) is charging ahead with its plan to become a leader in electric vehicle (EV) adoption. Their new Zero Emissions Vehicles (ZEV) Strategy outlines how they aim to drastically cut transport emissions and reach net-zero emissions by 2045. This isn't just talk; it's a comprehensive plan with real actions.

Why should you buy an EV in Canberra?

The ACT Government offers multiple incentives for people and businesses when they purchase an EV. And with new public chargers being installed all over the city, charging your EV is quick and easy. Canberra's are embracing EVs at a rapid pace, with over 9,100 EVs currently registered.
