

Quillagua, Latin America's largest solar plant with batteries, begins operations in Chile with 221 MWp and 1.2 GWh of storage.

In October 2015 Chile's Ministry of Energy announced its "Roadmap to 2050: A Sustainable and Inclusive Strategy", which planned for 19% of the country's electricity to be from solar energy, 23% ...

In 2025, Chile installed 1.13 GW of new solar capacity, reaching a cumulative total of 11.63 GW. Solar energy accounted for over 31% of the country's electricity generation.

Chile installed 1.13 GW of solar capacity last year, raising total solar capacity to 11.63 GW, while over 4 GW of renewable projects are under construction, according to the National Energy ...

In a powerful statement of intent, Chilean President Gabriel Boric and ENGIE CEO Catherine MacGregor have officially launched a monumental 2 GW solar and renewable energy ...

Solar power in Chile is an increasingly important source of energy. Total installed photovoltaic (PV) capacity in Chile reached 11.05 GW in 2023. In 2024, Solar energy provided 19.92 TWh of electricity generation in Chile, accounting for 22.3% of total national electricity grid generation, compared to less than 0.1% in 2013. In October 2015 Chile's Ministry of Energy announced its "Roadmap to 2050: A Sustainable and Inclusive...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.

The latest: In January 2025, coal made up less than 11% of Chile's electrical output, a new monthly low, according to data collated by research group Ember. On the other hand, solar's ...

Located seven kilometers from Mar#237;a Elena in the Atacama Desert, CEME 1 has 882,000 high-tech solar panels covering an area of 435 hectares. The plant is expected to generate enough ...

Government officials have said they expect solar power will account for 46% of the country's total installed generation capacity by 2060, with most of that solar located in the north of...

Guanchoi's construction included the installation of 893,508 solar panels with state-of-the-art bifacial monocrystalline photovoltaic technology, allowing for greater efficiency in capturing solar ...
