

Does new york have potential for energy storage and new energy

Will New York achieve 6 gigawatts of energy storage by 2030?

Share sensitive information only on official, secure websites. Governor Kathy Hochul today announced that the New York State Public Service Commission approved a new framework for the State to achieve a nation-leading six gigawatts of energy storage by 2030, which represents at least 20 percent of the peak electricity load of New York State.

How big is energy storage in New York State?

Nonetheless, energy storage accounts for only about 2% of total U.S. energy capacity.³⁶ FOTM systems have driven the bulk of this growth in installed ESS capacity. Under the Climate Leadership and Community Protection Act (CLCPA) passed in 2019, New York State (the State) established an ambitious goal for energy storage of 3 gigawatts by 2030.

Will New York double its energy storage goal in 2022?

Hochul announced plans in January 2022 to double New York's previous energy storage goal of 3 GW by 2030. The state released a draft road map in December 2022 showing how it would achieve its new target, including a centralized procurement mechanism to expedite solicitations and deployments.

How much energy storage does New York have in 2024?

As of April 1, 2024, New York has awarded about \$200 million to support approximately 396 megawatts of operating energy storage in the state. There are more than 581 megawatts of additional energy storage under contract with the State and moving towards commercial operation.

Under the Climate Leadership and Community Protection Act (CLCPA) passed in 2019, New York State (the State) established an ambitious goal for energy storage of 3 gigawatts by 2030.

New York PSC adopts energy storage road map detailing path to 6 GW by 2030 The PSC order targets 3 GW of new utility-scale storage, 1.5 GW of new retail storage and 200 MW of ...

The energy sector already in 2022 employed 318,500 New York workers. The clean energy workforce especially will be turbo-charged with an estimated \$34 billion of investment in large ...
