

Greenlinx 3 2 battery review

What is a greenlinx battery?

Greenlinx are the UK's first battery to use High Power Density (HPD) Lithium Cells, which can utilise 100% of the battery capacity (other lithium batteries can only use 90%). This is a battery unit that can easily be retrofitted into an existing solar panel system, or be a part of the design from the initial planning. So it is a flexible system.

How does a greenlinx 3200 HPD lithium battery work?

Each Greenlinx 3200 HPD Lithium battery has an individual modem inbuilt, which means simple connection of each battery to the internet allows specific monitoring, technical support and future upgrades should it be needed.

Does greenlinx have a warranty?

It links easily into most popular types of inverters, and has a warranty of ten years, which is similar to many other batteries currently available. Greenlinx is an established manufacturer of renewable technologies including battery storage products.

How does greenlinx Harnitek work?

Greenlinx Harnitek uses HPD lithium to achieve market leading charge and discharge levels. Smaller than other batteries this great looking battery has inbuilt modem to allow single batteries to be monitored online. Long and short cables provided with every unit, just plug and play set up for the most efficient battery we have ever distributed.
