

Invest in becoming an energy storage system integrator

How is the energy storage industry changing?

The global energy storage industry continues to rapidly expand, creating opportunities for new entrants and incumbents alike. As the market grows, many system integrators are evolving their business model to create a stronger competitive footing.

Are energy storage inverters a challenge to existing integrators?

With significant project pipelines dwarfing the existing installed base, energy storage inverter (power conversion system - PCS) manufacturers are expanding their presence targeting solar plus storage applications and existing integrators are challenging the incumbents.

Can a system integrator save money?

By doing this, IPPs like NextEra in the US and Eco Stor in Germany (two examples) can save on the cost of hiring system integrators, and this approach accounts for a 'significant share' in some local markets, Shi and Rambli said.
