

Iraq's new rooftop solar panel manufacturer

Where are solar panels coming from in Iraq?

With a focus on innovation and sustainability, Baghdad continues to attract investments in solar technology, making it a key player in the nation's journey towards renewable energy. Basra, another significant city in Iraq, is rapidly emerging as a crucial hub for the solar panel industry.

Are solar panels a good investment in Iraq?

The renewable energy sector in Iraq is witnessing a significant transformation, with solar energy taking the forefront in this change. The country's abundant sunlight makes it an ideal location for solar power generation, leading to a growing interest in solar panels in Iraq.

What does a new solar plant look like in Iraq?

"This is the first project of its type in Iraq that has this capacity," said Safaa Hussein, executive director of the new solar plant in Karbala, standing in front of row after row of black panels. From above, the project looks like a black-clad city surrounded by sand.

Will Iraq open its first solar plant?

KARBALA, Iraq (AP) -- Iraq is set to open the country's first industrial-scale solar plant Sunday in a vast expanse of desert in Karbala province, southwest of Baghdad. It's part of a new push by the government to expand renewable energy production in a country that is frequently beset by electricity crises despite being rich in oil and gas.
