

What is Italy's first solar auction?

The procurement exercise was Italy's first solar auction implementing the resilience criteria stipulated by the EU in the Net Zero Industry Act (NZIA). For PV projects exceeding 1 MW in size, the Italian government excluded the use of solar modules, cells, and inverters from China.

Is BNZ energizing its first solar PV project in Italy?

BNZ is proud to announce the energization of Rinaldone, its first solar photovoltaic (PV) project in Italy. The 45 MW solar farm, located in the Lazio region near Viterbo, marks a significant milestone in the company's renewable energy ambitions.

Where is RWE launching its first solar plant in Italy?

RWE has commissioned its first solar plant in Italy. The 8.3 megawatt (MWac) Bosco groundmounted solar plant consists of around 15,000 bifacial modules. The photovoltaic plant is located on a 16 hectare site in the municipality of Partinico near Palermo, Sicily, and will supply up to 7,000 Italian households with green electricity.

How much does a solar project cost in Italy?

The procurement exercise, the second solar auction under Italy's Fer X incentive scheme and first to exclude the use of Chinese solar modules, cells and inverters for projects above 1 MW in size, concluded with a final average price of EUR0.06637/kWh. From pv magazine Italy

Italian energy agency Gestore dei servizi energetici (GSE) has announced that the first solar energy auction under Italy's new incentive scheme for renewable energy, the "transitional" FER ...

Italy's FER-X awards 1.1 GW of non-Chinese solar at EUR66.38/MWh, a 17% premium--backing resilience, unlocking EUR10B, and signaling EU NZIA-era procurement shifts amid ...

Italy's first solar auction under the transitional FER X incentive scheme drew 17.5 GW in project proposals and an additional 2.87 GW in wind bids, according to state-run energy agency ...

The procurement exercise, the second solar auction under Italy's Fer X incentive scheme and first to exclude the use of Chinese solar modules, cells and inverters for projects above 1 MW in ...

Renewable energy company Zelestra has announced full commercial operations at the 6.5 MWdc Ginosa solar plant in Puglia, Italy, with a long-term PPA agreed with BKW Energy.

RWE has commissioned its first solar plant in Italy. The 8.3 megawatt (MWac) Bosco groundmounted solar plant consists of around 15,000 bifacial modules. The photovoltaic plant is ...

RWE's first solar power plant in Italy, located in Partinico near Palermo, Sicily, will cover 16 hectares. The 8.3 MWac plant, equipped with 15,000 bifacial modules, is designed to maximize ...

Italy first solar

In the first seven months of 2025, 132,276 new PV systems were connected, contributing 3,354 MW of additional capacity. This growth underscores the increasing role of solar energy as a ...

Enfinity Global has launched a 33.8 MW solar plant in Italy under a long-term agreement with Microsoft, marking the first operational project in a plan totaling up to 366 MW. The facility will ...

BNZ is proud to announce the energization of Rinaldone, its first solar photovoltaic (PV) project in Italy. The 45 MW solar farm, located in the Lazio region near Viterbo, marks a significant ...
