

Liang Energy Storage solar Power Station

Founded in 1995, Linyang Energy is a national high-tech enterprise listed on the Shanghai Stock Exchange. As a main force in green energy transformation, Linyang adheres to a zero-carbon ...

Be a first-class product and operating service provider in the global field of smart grid, renewable energy and energy storage.

Find a service point in your area to quickly solve your problem. Here you can find answers to your questions, or try to get in touch with our engineers.

With advanced energy storage system design and innovative energy storage system integration technology, Linyang ESS provide customers with intelligent energy storage products and system ...

Whether you're planning a microgrid for a factory or just want backup power that doesn't guzzle diesel, solar energy storage stations like Linyang's offer flexibility you can't ignore.

Smooth the intermittency of renewable energy and improve the efficiency Peak shaving, frequency regulation and auxiliary services to improve ROI of energy storage

The project aims to enhance grid performance by using energy storage to support electricity spot trading and balance power demand during peak and off-peak hours.

As one of the first coastal energy storage projects in Jiangsu Province, this project will provide energy storage support for renewable energy sources within the province, particularly coastal ...

Construction on Tesla's Megapack energy storage plant in Shanghai's Lin-gang Special Area is set to be completed by the end of this year, finishing in an impressive seven months. ...

Located in the Lingang New Area, the Shanghai Megafactory is Tesla's first energy storage manufacturing site outside the U.S. and serves as the primary global production hub for the ...
