

Learn how our photovoltaic solutions are shaping the future of architecture. Explore our full catalogue available in PDF or as an AUDIOBOOK.

SONAE ARAUCO is launching its first photovoltaic panels" project, at the Linares site.

Linares, Maule Region, Chile presents a moderately favorable location for year-round solar energy generation, though with significant seasonal variations that impact overall efficiency. The solar ...

Linares solar farm (Chile) (Parque Solar Linares) is an operating solar photovoltaic (PV) farm in Linares, Chile.

Sonae Arauco and Sidenhol (Enhol Group) have signed a renewable energy contract for the installation of photovoltaic panels at the industrial plant in Linares. The power purchase agreement has a ...

Longi's photovoltaic panels are equipped with advanced technology, such as monocrystalline Passivated Emitter and Rear Cell (PERC) technology, which enhances energy generation efficiency ...

Solar energy technologies and power plants do not produce air pollution or greenhouse gases when operating. Using solar energy can have a positive, indirect effect on the environment when solar ...

Sonae Arauco has signed a power purchase agreement (PPA) with Sidenhol, an Enhol Group subsidiary, to install photovoltaic panels at the Linares industrial unit. The agreement has a duration ...

Corrosion-resistant aluminum frame allows extended outdoor use; the panels can last for decades. Anti-reflective, high transparency, low iron-tempered glass with enhanced stiffness and ...

LinoArtes photovoltaic panels
