

Manila solar container communication station Energy Storage Cabinet

What is solar & storage live Philippines?

CONSTRUCT. OPERATE. Solar & Storage Live Philippines is where real business gets done. We deliver big ideas, new technologies, and market-disrupting solutions that will accelerate the Filipino energy transition. And more than 18,000 attendees. This is more than a trade show, and it's not full of people just looking for free pens.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

What is solar & energy storage now?

Our attendees are serious buyers looking to invest in solar and energy storage solutions NOW. It's a marketplace where installers, distributors, project developers, policymakers, solution providers and technology leaders come together - and where you can grow your solar and energy storage business by making thousands of in-person connections.

Is there a demand for solar power in the Philippines?

There is a high demand for solar power in the Philippines, both in commercial and industrial, and in remote areas where access to traditional electricity is limited. The Philippines will more than double its solar power output by 2030
