

Modular Energy Storage Cabinet for Substations Low Temperature Type

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

Mobile E-Houses are installed on trailers as portable substations. All 3 E-House types can solve various project challenges and support on common sustainability goals.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

This design method concentrates key substation functions such as high-voltage (HV) switches, transformers, protection, and metering into a single modular unit that is easy to transport and can be ...

The EnergyPack P200 is a compact 10ft battery storage cabinet with 188kVA and 188kWh capacity to reduce energy costs, ideal for off-grid applications.

TGOOD provides modular substation solutions for extremely cold region applications, available down to the lowest temperature of minus 50 degrees (-50°C). In order to deliver a safe and reliable modular ...

Our Prefabricated Substation Cabin offers a plug-and-play solution by integrating medium-voltage switchgear, transformer, and low-voltage panels in a weatherproof enclosure. It's ideal for industrial ...
