

# Palau solar supporting energy storage policy

KOROR, Palau (July 10, 2025) -- Australia has pledged \$16.4 million to support the next phase of Palau's transition to renewable energy, with funds designated to secure a battery energy storage ...

&quot;From backing Palau's first large-scale solar power plant and battery storage facility to upgrading Palau's energy grid, Australia's investment in Palau's energy transition is an investment in Palau's future. ...

The Federal Government has committed \$16.4 million to upgrade Palau's electricity network, enhancing grid reliability and supporting a shift toward renewable energy. The funding ...

An AIFFP loan and grant package has supported Solar Pacific Pristine Power to build Palau's first solar and battery energy storage facility, key to its transition to renewable energy.

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major ...

The solar-plus-storage system converts sunlight into electricity, stores excess energy, monitors power generation, and discharges power when needed, reducing dependence on the grid.

An AIFFP loan and grant package has supported Solar Pacific Pristine Power to build Palau's first solar and battery energy storage facility, key to its transition to renewable energy.

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

AIFFP is investing in Palau's grid upgrades and battery storage to enable more solar power, reduce diesel reliance and support Pacific climate leadership.
