

What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.

Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.

What should a solar panel contract include?

Your solar panels' contract should estimate how much energy will be produced and what savings the client can expect. This section of the agreement should clearly outline how the system's performance will be monitored and what guarantees are given. Solar power has many benefits for businesses and commercial properties, such as

What is a solar development agreement?
