

Solar panels at Chile's solar base

Starting today, Enel Chile, through its subsidiary dedicated to the development of renewable energy, Enel Green Power Chile, will commence commercial operations of stages 1, 2, ...

Spanning over 400 hectares, the CEME1 project, which was completed in less than three years, boasts an installed capacity of 480 megawatts, with 880,000 photovoltaic panels. A 220 kV ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.

Explore the updated 2025 list of top solar companies in Chile, featuring global developers, EPCs, and technology providers like Grace Solar. Discover key players driving Chile's renewable energy boom ...

The project is located in Maria Elena municipality, in the Antofagasta region in Chile. It is expected to be one of the country's largest solar and storage projects once fully operational.

Located seven kilometers from Maria Elena in the Atacama Desert, CEME 1 has 882,000 high-tech solar panels covering an area of 435 hectares. The plant is expected to generate enough ...

The photovoltaic plant's construction began in January 2015, and it began its operation in June 2016 with 160 Megawatt of panels, making it Chile's largest solar plant at the time. Northern Chile has the ...

There is a place in Chile's Atacama Desert where the power of the sun never seems to set. It is the Quillagua photovoltaic power plant, officially inaugurated on 8 April in the municipality of ...

Chile's Quillagua site saw the inauguration of Latin America's largest photovoltaic plant with battery storage.

In June 2014, the 100-megawatt (MW) Amanecer Solar CAP, a photovoltaic power plant located near Copiapó in the Atacama Desert was inaugurated. It was developed by the company with the same name, Amanecer Solar CAP, and was the largest in Latin America at the time. It is capable of generating 270 gigawatt-hours (GWh) of electricity per year.
