

Swaziland's latest energy storage requirements

Prince Lonkokhela, the minister of Natural Resources and Energy, announced at the event that Eswatini is set to increase its electricity generation capacity by 241 megawatts as of July 2026 in an ambitious ...

In a landmark decision, Swaziland has greenlit a major energy storage initiative aimed at addressing grid instability and accelerating renewable energy adoption.

A Memorandum of Understanding (MoU) signed recently by well-known Omani firm Nafath Renewable Energy with Takhzeen, a 100% subsidiary of publicly traded firm ONEIC, will help introduce ...

Three key documents underpin Eswatini's energy ambition: 1) Eswatini 2050 Energy Masterplan, outlining strategy for energy security, reliability, sustainability, and affordability; 2) 2033 Short-term ...

The hybrid solar-plus-storage project takes the title of hosting the "biggest operational Arizona BESS" from another Salt River Project solar-plus-storage plant, Sonoran Solar Energy Center.

With frequent power fluctuations and increasing adoption of electric vehicles (EVs), these systems combine solar energy storage and fast charging capabilities to address multiple challenges.

Utility-level energy storage is essential for not only stabilizing the grid, but also to time-shift excess energy and provide a way to deal with sudden spikes in demand (peak-shaving) plus demand

This report provides an initial insight into various energy storage technologies, continuing with an in-depth techno-economic analysis of the most suitable technologies for Finnish conditions, namely ...

In collaboration with private entities and foreign aid programs, the Swazi government is taking crucial and necessary steps to advance its energy infrastructure and deliver power to the 17% of the population ...

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in ...
