

Where to ship circular photovoltaic panels

How do I ship solar panels from China?

Shipping solar panels from China to your country. Shipping solar panels from China requires careful planning and logistics management. Consider the size and weight of the panels, as well as any special packaging or handling requirements. Discuss shipping options with your supplier, including air, ocean or ground freight.

How are solar panels shipped?

Most solar panels are shipped via 20ft or 40ft containers. Depending on the quantity, you may choose between FCL (Full Container Load) or LCL (Less than Container Load). FCL: If you are importing a large number of solar panels, booking a full container is cost-effective and provides better security for your goods.

How to choose the right shipping method for solar panels?

The freight forwarder needs to ensure that the packaging material is suitable for the specific type and size of the panel. Shipping method: Choosing the right shipping method (air, sea or rail) is a critical decision that affects the cost and safety of shipping solar panels. Each mode has its advantages and challenges.
