

# Yingli photovoltaic panel production address

Where are Yingli solar panels manufactured?

Yingli Solar, headquartered in China, manufactures its solar panels using advanced technology. The company sells its solar panels in New Zealand via distributors and has won many awards for its panels. Yingli Solar produces and supplies the following solar modules:

How many solar panels did Yingli produce in 2018?

In 2018 they shipped 1.7 gigawatts of panels, which was little more than half their 2014 production. Company History The company's full name is Yingli Green Energy Holding Company Limited. It was founded in 1998 and commenced production of solar panels in 2003. It rapidly expanded and became the world's largest manufacturer in 2012 and 2013.

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.
